

This product is being returned as it fails to meet the 'essential requirements' of the **EMC Directive (2004/108/EC)** and it is in contravention of the United Kingdom's **Electromagnetic Compatibility Regulations 2006**.

Article 5 of the EMC Directive states:

"Equipment shall be so designed and manufactured, having regard to the state of the art, as to ensure that:

(a) the electromagnetic disturbance generated does not exceed the level above which radio and telecommunications equipment or other equipment cannot operate as intended;

(b) it has a level of immunity to the electromagnetic disturbance to be expected in its intended use which allows it to operate without unacceptable degradation of its intended use."

The product produces considerable radio frequency interference (RFI) which causes unacceptable disturbance to broadcast radio services and other radio spectrum users. Failure to meet the 'essential requirements' invalidates this product's CE mark, therefore, it is illegal to make this product available for sale.
